Washington, DC

Re: First Annual Federal Hispanic Career Advancement Summit  
Crystal Gateway Marriott Hotel, Crystal City, Virginia  
October 1, 2008

Dear Mr. Ponce:

Hispanics continue to be the fastest growing segment of the civilian labor force. Yet, this group remains under represented in the Federal government, particularly, at senior levels of Federal components. In an effort to address this concern and to promote advancement of Hispanics within the Federal government, senior leaders from several Federal agencies are currently steering an inter-agency committee that is coordinating subject activity.

The purpose of the Federal Hispanic Career Advancement Summit is to:

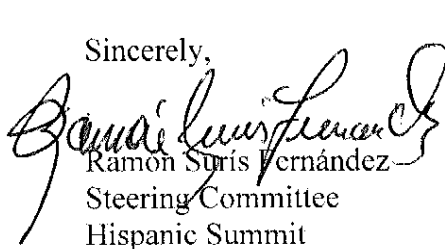

- Champion the advancement and development of Hispanics in the federal workforce;
- Target and enhance leadership skills among federal employees;
- Promote and provide training and education for federal employees; and
- Serve as a key event for the National Hispanic Heritage Month.

The Council of Federal EEO & Civil Rights Executives has supported the federal community over the years and your assistance encouraging your members to participate in this educational event and highlighting its importance within your organization is much appreciated.

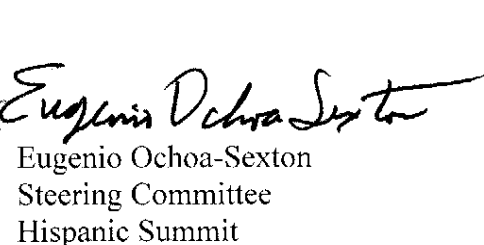

If you need additional information, you can access our website at <http://www.federalhispanicsummit.org>. Also, you may contact Ms. Carmen G. Cantor, Affinity Groups Liaison, at (202) 720-7233.

Thank you for your continued support, time, and consideration.

Sincerely,

  
Ramon Suris Fernandez
